Skills

Proficient in **HTML5**, **CSS** (and **SASS/SCSS**), **JavaScript**. Good understanding of **Python** and two web frameworks **Flask** and **Django**.

Data and test-driven development, continuous integration with **TravisCI**, using **SQLite** and **PostgreSQL** or **MongoDB** for data.

Native English speaker with a conversational understanding of German.

Excellent verbal and non-verbal communication, a key trait learned from working with a massive variety of individuals from a large number of backgrounds in my retail experiences.

Projects

Code Institute Projects / Portfolio Projects whilst studying Full Stack Development

[Milestone 1 - "The Monkees"](#): A basic **HTML/CSS** project to showcase an understanding of the languages of the web, this project was my first graded submission for my full-stack course.

[Milestone 2 - "LOTR Dashboard"](#): This project took what I had learned from the first project and more with **Javascript** and **jQuery**. Visualizing data taken from a **JSON** file and using this to map data with **D3/CrossFilter**. This project is the one I am most proud of.

[Milestone 3 - "CookBook"](#): This project was built to showcase my learning with Python and a microframework called **Flask**. It is a simple CRUD Website that allows users to store recipes, ingredients and a photo of a meal that can be shared with everyone using the web. This was a project based on data-driven development, using a **NoSQL** platform **MongoDB**

[Milestone 4 - "Artefact & Curiosities"](#): This project has expanded my knowledge of **Python** and working with the **Django** framework. I built a fully functional E-Commerce web-app, using **SQLite** on the development server and **PostgreSQL** on the deployed version, where users can purchase fictitious items and items from history.

Experience

Aldi Stores LTD / Assistant Store Manager / Deputy Store Manager / Store Assistant / Stock Assistant

Nov 2013 - Oct 2019, Salisbury, UK. Full time 48+ hours.

Responsible for managing figures and key performance indicators such as sales & forecasting, customer satisfaction, and productivity.

Due diligence such as health and safety, weekly and quarterly corporate updates and providing training for staff development.

Staff scheduling, disciplinary procedures, performance management, and hiring.

Leading and driving staff in a positive manner to push the store forward at all times.

Responsible for setting up old stores to a new format, due to my high work rate.

Restless Development (ICS) / International Volunteer

May 2013 - Oct 2013, London & Winchester UK / Ganjam, India. Voluntary Role.

Public speaking, team building, and event organization.

Trained in various disease prevention techniques to assist in events organized by the charity to help locals in India.

Tasked with raising public awareness and £1500 to assist in the region I was working with.

Education & Training

Code Institute/ Fullstack Web Development - Second Class Honours

Feb 2019 - Dec 2019, Berlin, Germany.

An online course accredited by the Napier University Edinburgh. This Diploma has enabled me to understand how the web works, how to write frontend applications using **HTML**, **CSS** and **preprocessors** and **JavaScript**. Whilst also teaching me the backend theories of **Data-Centric Development**, working with **SQL**, **Python** and using **Django/ Flask** to create full-stack projects.

Aldi Academy / Various Courses

Jun 2014 - Jul 2018, Swindon UK.

During my time in management within the Aldi corporation, they provided me with regular training and courses such as:

Assertiveness, conflict management & resolution.

Effective training, succession and development implementation.

First aid, health & safety and many more.

PETA LTD / NVQ Level 1

(EQF Level 2)

Aug 2012 - Dec 2012, Winchester, UK.

This was a two-part NVQ, in which I earned a distinction, consisting of:

Business Administration: learning the administrative side of a business, telephone manner, face to face communication, presentations, etc.

Customer Service: Learning about customer satisfaction and helping to develop interpersonal skills within a customer-facing environment such as proactive and passive service.

Peter Symonds College / A* + A-Levels

(EQF Level 4)

Sep 2010 - Jul 2012, Winchester UK.

Film Studies: B

Sociology: B

Classics: C

Computing: C

Personal Information

Hobbies & Interests

I am an extremely active individual who loves being on his feet, I spend my downtime in the gym and swimming pool.

I have a passion for cooking and great food.

I also have a great interest in history and mythology and read to those books within this spectrum

Whilst not at home I like to spend my holiday time traveling and a few years ago I attained an open water diving qualification.
